ABSTRACT

Salary schedules are presented for those elementary and secondary school teachers in South Carolina who possess a professional or "A" certificate and are employed for a regular school term. The estimated average teacher salaries for the State and each school district are calculated from Fall 1983 contracted teacher salaries, which are reported through the Basic Education Data System. The end-of-the-year average teacher salaries for 1982-83 are calculated from teacher salary information which appears on the final update of the Professional Certified Staff Listing from the 92 school districts. Both the estimated and actual end-of-the-year average teacher salaries are derived through summing the total contracted salaries for full-time teachers and dividing the sum by the total number of full-time teachers. The average annual teacher salary for 1982-83 and the estimated average teacher salary for 1983-84 appear for each school district and for the state. (JD)

# FOREWORD

The annual Teacher Salary Study is designed to provide teacher salary information which is requested most frequently by data users. Because of space limitations, salary schedules are presented for those teachers who possess a professional or "A" certificate and are employed for a regular school term. Considerations for extra-duty pay and schedule changes occurring after the Fall 1983 submission to the Department of Education are not reflected in the salary schedules in this study.

The estimated average teacher salaries for the State and each school district are calculated from the Fall 1983 contracted teacher salaries which are reported through the Basic Education Data System (BEDS). The end-of-the-year average teacher salaries for 1982-83 are calculated from teacher salary information which appears on the final update of the Professional Certified Staff Listing from the ninety-two school districts. Both the estimated and actual end-of-the-year average teacher salaries are derived through summing the total contracted salaries for full-time teachers and dividing the sum by the total number of full-time teachers. The average annual teacher salary for 1982-83 and the estimated average teacher salary for 1983-84 appear for each school district and for the State. The information reported in the Teacher Salary Study, 1983-84 should be useful in examining teacher salary schedules across the State.

Please review the "Footnotes" on page 96 and the "Definitions and Explanations" on pages 97 through 99 of this publication before using any of the data in the salary tables. Questions concerning the presented teacher salary information should be directed to:

## DEFINITIONS AND EXPLANATIONS

AVERAGE SALARY, 1982-83: The district and State average teacher salaries for 1982-83 are based on the final "Professional Certified Staff Listing, 1983." Only the salaries of full-time classroom teachers (BEDS Codes 03 and 05-09) with 185 days of employment within the districts are included in the calculation of the averages.

EDUCATIONAL LEVEL:

Bachelor's Degree - Teachers with a Class III certificate are included in this category. Regular teachers must have a Bachelor's Degree and an approved teacher education program or the approved program of specific course requirements adopted by the State Board of Education for an area of initial certification. Certain categories of vocational teachers attain a Class III certificate through a combination of education and work experience ranging from a Bachelor's degree in an appropriate field and one year of work experience to a high school diploma or equivalent and eight years of successful work experience in the trade for which they are employed to teach.

Bachelor's Degree + 18 HOURS - Teachers with a Class II certificate are included in this category. Regular teachers must have a Bachelor's Degree, an approved teacher education program or the approved program of specific course requirements adopted by the State Board of Education for an area of initial certification, plus eighteen semester hours of graduate credit. Requirements for certain categories of vocational teachers range from a Bachelor's degree and eighteen hours of graduate credit in an appropriate field and one year of work experience to a high school diploma or equivalent and ten years of successful work experience in the trade for which they are employed to teach.

Master's Degree - Teachers with a Class I certificate are included in this category. Regular teachers must have a Master's Degree, with at least six semester hours of graduate credit in professional education courses beyond the requirements for the Class III Professional Certificate. Requirements for certain categories of vocational teachers range from a Master's degree in an appropriate field and one year of work experience to a high school diploma or equivalent, ten years of successful work experience in the trade for which they are employed to teach, plus a minimum of thirty-two approved semester hours.

Master's Degree + 30 Hours - Teachers with a Class VII certificate are included in this category. The Class VII certificate requires a Master's degree plus 30 semester hours of graduate credit in a planned program approved by the State Board of Education. To qualify for a Class VII certificate, a teacher must possess a minimum of 60 semester graduate hours which are approved by the State Board of Education.

Doctor's Degree - Teachers with a Class VIII certificate are included in this category. The Class VIII certificate requires an earned doctorate with at least twelve semester hours of graduate credit in professional education courses beyond the requirements for the Class III Professional Certificate.

ESTIMATED AVERAGE, 1983-84: The district and State estimated average teacher salaries for 1983-84 are based on the Fall 1983 BEDS data collection. Only full-time classroom teachers with a contract of at least nine months are included in the calculation of the averages.

MINIMUM SALARY SCHEDULE: The Education Finance Act (EFA) of 1977 established a minimum salary schedule for teachers in South Carolina. The schedule is adjusted annually at the same percentage as the base student cost in the foundation program. All ninety-two districts pay teachers at least the minimum specified by State Statute.

The displayed schedules in this publication include only salary values for teachers with a Professional or "A" certificate and who are employed 185 days. The 1983-84 district salary schedules are compared to the 1983-84 minimum salary schedule for selected years of experience. The comparison shows the amount and percentage that the district pays beyond the amount required in the selected groups. The difference indicated in these tables should not be considered the equivalent to the local supplement under the State Aid System which was in effect prior to the implementation of the EFA. The EFA changed the method of State allocation, and local funding for teacher salaries is included in the minimum schedule on a percentage basis which varies by district.

RANK: The ranks appearing next to the salary schedule values and the average annual salary values indicate the position of the paid salary or average salary relative to the values for the other ninety-one districts. For example, a rank of 1 indicates that no other district has a higher value; and a rank of 60 indicates that exactly 59 districts have a higher value.

In some instances, there are large cell-to-cell variations in rank within a district. This occurs when a schedule is similar to that of a group of districts paying the same schedule values. For example, the seven school districts in Spartanburg County pay teachers essentially the same salary schedule values. A district with a similar salary schedule could have ranks differing seven places without a substantial deviation in comparative values.

There are approximately 59 different salary values per cell as reported by the 92 school districts. Districts with the lowest salaries rank from 60 to 72 for all educational levels and years of experience. For example, twenty-three districts pay a beginning teacher the minimum

salary of $12,220. These districts all tie for the bottom rank of 70. Note that while a rank of 70 means that exactly 69 districts rank higher, it does not mean that 23 districts rank lower. Therefore, one should be cautious when using these data.

SALARY SCHEDULE: The 1983-84 district salary schedules are reported as submitted to the State Department of Education by the ninety-two school districts in the Fall of 1983. Due to space limitations, the salary schedule data are presented only for teachers with a Professional or "A" certificate. Salary schedule data for teachers with less than a Bachelor's Degree (Class III certificate) and longevity increments beyond seventeen years of experience are not displayed. In instances in which district salary schedules lack a salary for a specific class or educational level, a dash (-) is used to denote the omission.

The 1983-84 district salary schedules are compared to the 1982-83 schedules for selected years of experience. Please note that the comparisons represent the difference and percent difference between the two years in identical educational level and experience cells. The actual change in salary for an individual teacher from 1982-83 to 1983-84 would be greater due to the incremental step for experience.

TEACHER: Legally, a "teacher" is defined as any person who is employed either full-time or part-time by any school district either to teach or to supervise teaching (§ 59-1-130, 1976 S. C. Code of Laws). For the purpose of this publication, teacher information originally collected through the Basic Educational Data System and updated via the "Professional Certified Staff Listing" was utilized in this report and includes teacher position codes, 03 (special education - itinerant teacher), 05 (kindergarten teacher), 06 (special education - self contained), 07 (special education -resource teacher), 08 (regular classroom teacher), and 09 (other professional instructional staff).

YEARS: The total years of educational experience include the number of years employed in a professional educational capacity.
